

Students: how they contribute to the local community

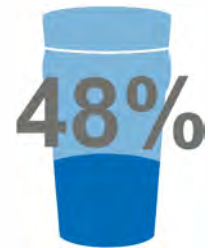

UNITE provides a home for nearly 8,000 students in London. We surveyed students living in 27 of our properties and found that UNITE residents contribute more than...

...to London's economy annually

...are looking for, or would be interested in, undertaking an internship

...think students are negatively stereotyped

...on travel

...on groceries

...on entertainment and leisure

To learn more about UNITE, visit www.UNITE-Group.co.uk.
